

7 REASONS TO WORK WITH Bizvu

The digital transformation market is set to hit \$7.4 tn. If you're looking for new ways to help your customers and want to work with a trusted partner who really understands automation, digitization and is fully integrated with the Mitel environment, work with Bizvu and take your share of this exciting market.

1. PEOPLE

The team at Bizvu create and deliver innovative solutions to organizations with specific customer challenges whether large or small, powering digital transformation. They have been innovating in the customer space since disruption began with web, mobile and social and bring a refreshing approach to designing and exposing solutions for clients. Bizvu are well known innovators of customer engagement and business processes and help organizations to facilitate change, creating new business models and defining digital solution architectures to meet this.

2. ORGANIZATION

Bizvu is a globally approved Mitel partner who are privately owned and are financially strong, so as not to defocus their mission. They provide a suite of feature rich SaaS applications that integrate with Mitel contact center solutions to meet the needs of modern digital organizations, increase the solution scope, scale and value of Mitel solutions since 2010.

3. TAILORED SOLUTIONS

The Bizvu suite of modular feature rich SaaS applications improves customer experience, operational efficiency and underpins workplace modernization, digital transformation and new business models. Commercially Off The Shelf (COTS) applications deliver unrivalled digital interaction management, expose valuable actionable data insight, support process automation and interaction orchestration and streamline access to and from back office databases and systems of record. These applications can be tailored quickly and simply to meet individual requirements.

4. VALUE ADDED SERVICE

Bizvu's differentiated value is achieved by combining long standing enterprise solution development experience, system orchestration, agile development principles, configurable applications and integration (enabling integration into digital platforms, back office systems and contact center platforms).

5. RELATIONSHIPS

Long-standing vendor and client relationships provide Bizvu with far-reaching insights into current and future digital workspace requirements. This is further enhanced by a well-established network of channel partners already achieving significant sales and recurring revenue streams.

6. TECHNOLOGY INNOVATION

Bizvu provides the flexibility to leverage agile development expertise and capabilities to provide targeted development to complement Mitel's offerings to market, creating differentiated value, sector solutions and new product offerings. In this fast-paced ever changing market place, speed of delivery is business critical for most organisations. The ability to provide out of the box solutions that solve current challenges, swiftly and cost-effectively is the secret behind Bizvu's success.

7. TRACK RECORD

Bizvu has a strong focus on support and professional services with long-term customers of all sizes reliant on robust solutions, from small businesses to large global enterprises spanning a wide range of industries. Bizvu's comprehensive solutions will boost your digital transformation portfolio, create significant business growth opportunities and provide your clients with outstanding operational value.
